

## H45 Electrical Stage Auto Pilot Rudder Reference Sensor Installation (11-22-05)

1. Mount and secure rudder sensor platform on glass rudder shelf radii. Use 3 pieces #10 pan head 1/2" long wood screws.
2. Mount and secure 1" thick starboard material on rudder reference platform so the rudder reference unit moment arm will be higher than fuel tank.
3. The rudder reference unit will be installed properly.
4. Refer to H45cc Electrical Stage, Autopilot Installation
